Sgt. Palczynski - 018 District Commander's office notified via E-mail 19 Oct.2011

Narrative:

R/L assigned to complete the 3rd Quarter Taser Reconciliation Report which necessitates downloading the data from each Taser assigned to the 018 District. R/L discovered, 17 Oct 2011 @ 2200 Hrs., that the above listed Taser, #15, was missing from the closet in the Watch Commander's office when she went to retrieve it for test-fire and download. R/L attempted to locate the missing Taser through 18 Oct 2011 and/or identify the officer last to have possession of missing Taser. Taser sign-out sheets were retrieved dating back to 1 Oct 2011 indicating that no officer had signed out the Taser. 19 Oct 2011, the entire facility was searched by R/L and the above listed witnesses. All offices, including Tactical, EVT, Sergeant, Watch Commander, Youth, and Front were searched. The exercise room, radio room, computer room, vendeteria as well as the tops of all lockers in the locker rooms were searched. Locked drawers and locked personal lockers or cabinets were not searched. Negative results. There is not a "Transfer Record / Inventoried Property" receipt in the Taser files or elsewhere, that R/L has access, that indicate that the Taser is at the armorers or in the shop for repairs. As of 19 Oct 2011 2330 Hrs. the Taser has not resurfaced.

Lieutenant M.E. Sarlito
